

NEW  
HOUSING PIPELINE

Q3 2023 REPORT

Published December 2023

 **Glenigan**

Analysis of market  
conditions and prospects  
prepared by Glenigan.

NEW HOUSING PIPELINE

Approvals continued to decline during the third quarter, continuing the downward trend seen over the last two years. At 2,778, the number of housing projects granted planning permission in the third quarter slipped by 2% against the preceding quarter and was 18% lower than a year ago. The number of approvals during the first nine months of 2023 were also 18% lower than a year ago.

The number of units approved during the third quarter dropped by 8% against the previous three months to total 61,221 units and was 21% lower than during the third quarter of last year. Overall approvals totalled 198,121 units during the first nine months of 2023, an 18% decline on a year ago.

Housing schemes of ten or more units during the third quarter accounted for 91% of approved units. At 55,510, the number of units on such schemes dropped by 8% against the second quarter and were 21% down on a year ago. The remaining 9% of units were on smaller new build projects of up to nine units including self-build schemes together with homes included within non-residential projects and from the conversion of non-residential properties.

Chart 1: Residential planning approvals (Great Britain)

N.B. Includes residential projects of all sizes, residential units on non-residential schemes and conversions. Source: Glenigan

At 1,722 the number of private sector housing projects (schemes of 3 or more units) securing approval was 8% down on the second quarter and was 21% down on a year earlier. At 54,638 the number of units on private sector projects granted planning permission slipped by 4% against the second quarter and was 20% lower than a year ago.

1. The range of projects covered by this report has been extended and now includes new build housing projects of all sizes, including schemes of less than 10 units, the conversion of non-residential buildings and residential units on mixed use developments.

Chart 2: Residential planning approvals by region (No. of units)

N.B. Includes residential projects of all sizes, residential units on non-residential schemes and conversions. Source: Glenigan

At 76, the number of social housing projects (of three or more units) has fallen back sharply, dropping by 16% on the second quarter to stand 44% down on a year ago. At 4,358, the number of units was 42% down on the preceding quarter and 39% lower than a year earlier.

Table 1: Number of residential units approved

2023 H1	-8%	-23%	-26%	-22%	-13%	24%	-18%

N.B. Residential projects of all sizes and residential units on non-residential projects and conversions.

Regionally, the North West, Yorkshire & the Humber and Scotland saw double digit growth in unit approvals during the third quarter, rising by 23%, 35% and 31% respectively. In contrast unit approvals fell sharply in the North East, East of England, London and Wales with declines of 70%, 31% 41% and 30% respectively against the second quarter. Yorkshire & the Humber and Scotland are the only two parts of the country to see a rise in unit approvals during the first nine months of 2023, with increases of 14% and 24% respectively. London, East Midlands, East of England, North West and South West have seen the sharpest falls over the same period, declining by 37%, 35%, 25%, 20% and 19% respectively.

# HOUSING APPROVALS

The tables provide a regional breakdown of new building planning approvals since 2016

**IMPORTANT NOTE:**  
 As a result of changes made by Glenigan to how they collect data on the number of permissions granted, there are some significant changes to the number of permissions reported in the Housing Pipeline reports from Q4 2020 onwards for quarters prior to that date, and to information in previous Housing Pipeline reports.  
 The procedural changes mean that the data collection is now more extensive and accurate than it was previously and so the numbers reported in the reports from Q4 2020, are a better reflection of the actual number of permissions being granted. The revised methodology has been agreed with the Department of Housing, Communities and Local Government, who Glenigan also provide planning permission data for and so this data set will match the official Government numbers. In its *Taking stock: The geography of housing need, permissions and completions report published in May 2021*, Lichfields considered in detail why planning permission data reported prior to Q4 2020 was not wholly accurate (and included, for example re-submitted applications) and so not a fair reflection of the number of actual plots given a permission.

## NOTES

This report is based upon an analysis of housing projects being tracked by Glenigan and held on its database of construction projects. We have now extended the range of projects covered by this report in order to provide a more complete assessment of the residential development pipeline.

The following restrictions and filters apply to the analysis:

1. New build projects of all sizes are covered by the report (Coverage was previously restricted to approvals for 10 or more units.)
2. Housing schemes are included where the development is primarily identified as being: Apartments/flats, Bungalows, Houses/ Luxury Housing or Sheltered Housing, Key Worker Accommodation or Sheltered Housing.
3. Conversions of non-residential properties for housing are included.
4. Private and social housing data includes schemes of 3 or more units.
5. Total residential approvals include 1 & 2 unit schemes together with residential units on mixed use developments.
6. Elderly people's homes, hostels and student accommodation have been excluded from the analysis.
7. Approvals are recorded at the detailed planning stage. Where a project has secured outline planning approval and the detailed consent is being resolved through the approval of reserve matters the date of 'detailed consent' is deemed to be that of the approval of reserve matters. In the case of some projects, the reserve matters are approved piecemeal; in these circumstances the earliest approval date has been used in order to avoid double counting.
8. The approvals data excludes Amendment of Planning Applications, Certificates of Lawfulness, Non-Building Applications, Removal or Variations of Conditions and responses by neighbouring planning authorities.
9. The late publication of planning approval decisions by local authorities may lead to the revision of planning approval data for the latest 12 months.

## ABOUT HBF

The Home Builders Federation (HBF) is the representative body of the home building industry in England and Wales. HBF's members' accounts for 80% of all new homes built in England and Wales in any one year, and include companies of all sizes, ranging from multi-national, household names through regionally based businesses to small local companies.
