

CONSTRUCTION SITE VISIT WORKBOOK

Name:

Date:

School/Organisation
Name:

Construction site visited:

OVERVIEW

This workbook will help you to build your knowledge and understanding of the design and building process at the construction site you are visiting.

You can try to fill in some of the information for this workbook prior to visiting the site and then complete the workbook during and after your visit.

Remember to ask relevant questions of the construction site personnel you meet and use the 'interview guide' in this workbook to help you.

For your site visit, you will need:

- appropriate clothing
- this site visit workbook
- a pen and pencil
- a clipboard (optional).

General information about the site

Insert image from site if possible.

Save your image as a PDF Then double click on the box above to insert.

Date of site visit

What is being built?

How much is this construction project worth?

Who are the contractors? (This refers to all companies responsible for organising all of the material, labour and equipment necessary for the construction of the project).

Who is the client? (This refers to the organisation or individual that has requested the building development . They are also known as the customer).

Jobs found on a construction site

Please write below craft and design/management jobs that are involved in the construction process on this site. What qualifications do they have?

Interviewing a construction worker

Interview guide

Use this guide to interview a construction worker you meet on your site visit. These are only examples of the types of questions you might ask – think of your own questions to ask as well.

What is your job title?

What do you do?

Describe your typical day on site.

How did you get a job in the construction industry?

What qualifications do you need for your job?

Did you go to college or university?

--

What subjects from school do you use most in your job?

What do you like most about working in the construction industry?

What advice would you give to someone thinking about a career in the construction industry?

Your own notes/questions

[illegible]
