

CONSTRUCTION INDUSTRY JOINT COUNCIL (CIJC)

BRIEFING

Holiday Entitlement 2011

INTRODUCTION

This briefing gives guidance on the programme of public holidays and annual holidays, which apply in England, Wales and Scotland until the New Year 2012.

The way holiday entitlement is calculated.

From 2010 the way annual holiday entitlement under the CIJC Working Rule Agreement has changed. The 21 days of industry holidays plus 8 days of public & bank holidays have been combined into a total entitlement of 29 days. The 29 days accrue on a week by week basis at the rate of 0.558 days per week of service. The 2011 holiday year starts on Monday 10th January, on return from the Christmas break.

Calculation of holiday entitlement for an operative who either leaves or joins during the year.

To calculate accrued holiday entitlement for a leaver it will be necessary to calculate how many weeks the operative has been employed during the holiday year and multiply the number of weeks by 0.558. This will give the accrued entitlement. It is then necessary to calculate how many days of paid holiday (both industry and public/bank) the operative has received during the same period. If the operative has been paid for less than the accrued entitlement then a payment in lieu of the difference must be made with the final wage. If, on the other hand, the operative has been paid for more holidays than accrued an appropriate deduction should be made from the final wage.

For an operative who joins part way through the year it is necessary to calculate the number of weeks remaining in the holiday year and multiply this by 0.558 – rounded to a whole number. This will give the total entitlement (inclusive of public/bank holidays) for the remainder of the holiday year.

PAYMENTS FOR HOLIDAYS GENERAL

The provisions of the CIJC Working Rule Agreement provide that all holidays (annual, Public and Bank) are paid at the same rate. Where the operative's pay does not vary with the amount of work done a week's pay is simply the normal weekly wage for the contractual weekly hours as defined by the contract of employment. Where the operative's pay varies with the amount of work done because of piece work or other productivity bonus arrangements, then a week's pay is arrived at by calculating the earnings during the normal working week as defined by the contract of employment, averaged over the 12 complete weeks worked immediately prior to the holiday week. A day's pay is calculated by dividing the week's pay as defined above by the number of hours in the normal week and multiplying it by normal hours in the particular day, both as defined by the contract of employment.

PAYMENT FOR WORK ON PUBLIC HOLIDAYS

All hours worked on a day designated as a Public Holiday shall be paid for at double time (WR.19.3). An operative who has worked on a Public holiday should be given another paid day's holiday in lieu and not paid holiday pay for the day worked. The day in lieu should be taken by agreement between the operative and the employer.

NIGHTWORK AND SHIFTWORK

In the case of night work or shift work, it is customary for a holiday period to commence and finish at that start of the shifts which include the midnight proceeding or the midnight at the end of the holiday period for normal day workers.

FLEXIBILITY ASSOCIATED WITH THE WINTER HOLIDAY

The Working Rule Agreement provides that all or some of the days of winter holiday can be taken on alternative days (WR.18.1). Where it is agreed that the days should be changed the entitlement remains two weeks. By way of example, from Wednesday to Tuesday a fortnight away, inclusive.
