NEW HOUSING PIPELINE

Q2 2016 REPORT

Published Sept 2016

NEW HOUSING PIPELINE

Residential planning approvals remained firm during the second quarter of 2016. The number of units approved during the quarter was unchanged on the first three months of 2016 and 24% up on the same period last year. The year on year rise was driven by 34% increase in the number of private housing units approved. In contrast 29% fewer social housing units were approved.

Overall Glenigan recorded the approval of around 74,400 residential units ¹ during the second quarter of 2016. Housing schemes of ten or more units accounted for 63,300 or 85% of approved units; the remainder being on smaller new build projects including self-build schemes, homes being included within non-residential projects and the conversion of non-residential properties.

Chart 1: Residential planning approvals (Great Britain)

N.B. Includes residential projects of all sizes, residential units on non-residential schemes and conversions. Source: Glenigan

At 2,616, the number of private sector housing projects (schemes of 3 or more units) securing approval during the second quarter was 1% down on the first three months of the year, but 4% up on the same period a year ago.

However the number of units granted planning permission on private sector projects has grown more rapidly Over 66,500 private units were granted permission during the second quarter, a 3% rise on the preceding quarter and 34% higher than a year ago. The more rapid growth in unit numbers was due to the approval of more schemes of 100 to 500 units.

The range of projects covered by this report has been extended and now includes new build housing projects of all sizes, including schemes of less than 10 units, the conversion of non-residential buildings and residential units on mixed use developments.

The number of social housing projects (of three or more units) weakened further during the second quarter, being 31% down on the preceding three months and 43% lower than a year ago. The number of social housing units approved during 2015 Q2 was 31% lower than in the previous quarter and 29% down on a year earlier.

Most parts of the country have seen a firm rise in units approved compared to the second quarter of 2015.

Table 1: Number of residential units approved

	North of England	Midlands	Southern England	England - All	Wales	Scotland	Great Britain

2016 H1	15%	25%	11%	14%	-10%	28%	14%

N.B. Residential projects of all sizes and residential units on non-residential projects and conversions.

The North East, South West and Scotland recorded the sharpest rises, being 65% 58% and 93% up on a year ago. In contrast unit approvals were lower in the East Midlands, Yorkshire & the Humber and Wales. Overall unit approvals in Great Britain during the first half of 2016 were 14% up on a year earlier, with Scotland and the Midlands witnessing the sharpest growth. Wales was a weak spot, extending the decline in unit approvals during last year.

NOTES

This report is based upon an analysis of housing projects being tracked by Glenigan and held on its database of construction projects. We have now extended the range of projects covered by this report to in order to provide a more complete assessment of the residential development pipeline.

The following restrictions and filters apply to the analysis:

- 1. New build projects of all sizes are covered by the report (Coverage was previously restricted to approvals for 10 or more units.)
- 2. Housing schemes are included where the development is primarily identified as being: Apartments/ flats, Bungalows, Houses/ Luxury Housing or Sheltered Housing, Key Worker Accommodation or Sheltered Housing.
- 3. Conversions of non-residential properties for housing are included.
- 4. Private and social housing data includes schemes of 3 or more units.
- 5. Total residential approvals include 1 & 2 unit schemes together with residential units on mixed used developments
- 6. Elderly people's homes, Hostels and student accommodation have been excluded from the analysis.
- 7. Approvals are recorded at the detailed planning stage. Where a project has secured outline planning approval and the detailed consent is being resolved through the approval of reserve matters the date of 'detailed consent' is deemed to be that of the approval of reserve matters. In the case of some projects, the reserve matters are approved piecemeal; in these circumstances the earliest approval date has been used in order to avoid double counting.

HOUSING APPROVALS

The tables provide a regional breakdown of new building planning approvals since 2009

Table 2: Number of housing units securing detailed planning approval by region & country

ABOUT GLENIGAN

Glenigan is the trusted provider of project information, analysis and sales leads for the construction industry. Its comprehensive company intelligence has been helping contractors, sub-contractors and suppliers build new working relationships for more than 40 years.

With exclusive content from leading industry bodies including The Builders' Conference, Glenigan offers the widest coverage of UK tenders and construction contracts. These construction project leads are unique to Glenigan and unavailable anywhere else.

The housing approvals data analysed in this report is drawn from Glenigan's extensive database of current and planned construction projects. Glenigan's detailed coverage of planned housing projects across the UK offers valuable strategic and tactical insights into developers' active sights and pipeline, with sites tracked through to completion.
